### **RESEARCH GRANTS**

Between 1965 and 1999, numerous Research Grants were held from the MRC, Wellcome Trust, Department of Health, South East Thames Regional Health Authority, and the Pharmaceutical industry.

### **RELEVANT PUBLICATIONS**

Rather than detail a full list of publications, which can be provided, these breakdown as follows:

The publications relate most to such topics as intrauterine perinatal virus infections, blood borne virus infections, gastroenteritis, vaccination (rubella, hepatitis A and B, rotavirus).

About 230 peer reviewed original papers, published in General Medical Journals (e.g. Lancet, BMJ) and specialist Medical Journals (e.g. Journal of Medical Virology, Journal of Infectious Diseases, Journal of Clinical Microbiology etc).

About 50 Editorials, mostly for Lancet and BMJ

30 Chapters in books

Editor of three books, including Editions 1 to 4 (5<sup>th</sup> in preparation) of Principles and Practice of Clinical Virology (Joint Editor)

Various reports on blood borne virus infections for Royal College of Pathologists (Chairman of HIV Working Party), Royal College of Surgeons and Royal College of Obstetricians and Gynaecologists.

### **TEACHING**

A full range of teaching duties at undergraduate and postgraduate levels (1965-1999). Following retirement this has continued to a lesser extent for undergraduates, but numerous postgraduate lectures given at home and abroad, mostly relating to blood borne virus infections, viral vaccines and intrauterine and perinatal infections.
